

Soft UI Framework

A full minimalist framework of GoDataFeed designed for in-app modals and mixed marketing applications. Mirrors all app modules – all app functions can be easily mocked-up with soft assets. Available in lite and rich forms.

Feed Validation

Message

- id contains one or more duplicate values. Values must be unique.
- Compliant - included in feed.
- gtin contains one or more duplicate values. Values must be unique.
- color is incorrectly formatted. Values with more than 3 characters are not allowed.
- description may benefit from more details because it is too short.
- additional_image_link is not being used.
- title may benefit from adding brand.
